Subject: Microsoft Settlement

DOJ

I believe the settlement in m/soft is fair and reasonable. In view of the serious issues involved and the time taken to come to resolution and because of the lower court judge's impertinent and unjudicial remarks which could provoke a new trial and prolong this matter even further, this matter is ripe for settlement, and the parties should be allowed to settle this long and hard fought dispute.

Please cast my vote to put this matter behind us and move forward. We need to conquer a recession-not keep rehashing this old news.

Michael Cole
